PROJECTS

[08/01/2025 – 14/05/2025]

Smart School Management System (Web Application)

Tech Stack: PHP (CodeIgniter), MySQL, HTML, CSS

• Developed a dynamic platform with Admin, Teacher, Student, and Parent dashboards.

• Parents can securely track student attendance, marks, academic reports, and communicate with class teachers and school admin.

• Teachers and Admin can send and receive messages with parents through the system.

• Fully implemented role-based access, responsive design, and secure database operations.

• Applied MVC architecture for scalable and organized code structure.
